RE: Docket No. 2017-346-E Petition of South Carolinians Against Monetary Abuse (SCAMA) and Leslie Miner to Direct South Carolina Electric & Gas to show Base Load Review Act (BLRA) Nuclear Debacle Charge on Monthly Electric Bill.

Dear Commissioners:

I am writing to inform you of Dominion and SCANA running radio advertisements that make it appear the merger has happened and that each ratepayer will receive a full \$1000. It is my understanding that those ads have been pulled, but not just how many had been run before that time.

Also, Dominion has run similar ads on Facebook. I have included copies of the photos placed on Facebook, but the links will not be active.

These are advertisements are false representations and should be considered illegal because they are misinforming the public about the merger. It is illegal to place false advertisements.

This company is already showing how it disregards your input with the utility SCE&G. They are referring to SCANA, but you are dealing with the utility. Dominion is totally disrespecting you and the Legislature is promoting these ads in advance of the merger! They need to be held accountable.

If you think you will have any input IF this deal goes through, this should be proof that you will have none. You need to do anything and everything in your power to keep this merger/sale from going through. Perhaps you could look into separating SCE&G from SCANA. That seems to be the only solution from where I see it.

Respectfully,

Sandra Wright
